

# AZUMA SELF CERTIFICATION KIT

## FOR WINDOW COMPLIANCE FOR CHILDREN'S SAFETY

### AS PER AUSTRALIAN STANDARD AS5203

Azuma Design, approved testing specialists have developed a self certification kit to test windows to the new BCA codes for childrens safety implimented on May 1 2013.

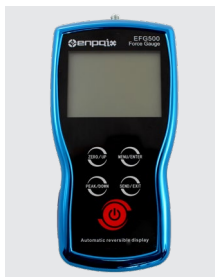

The kit will allow you to test each window to the AS5203: 2016 protection of openable windows/fall prevention - test sequence and compliance method that was developed by a panel of industry experts.

The kit allows businesses to self certify windows on site to ensure their products are suitable to be used within the parameters of the new requirements found in the NCC (National Construction Code) and the Australian Standards.

#### *The self certification kit includes:*

Stop watch

Force gauge

125mm sphere

125mm bullet  
shape probe

125mm diameter  
pressure plate

#### *Training Included*

Azuma Design will provide product training at our head office in Sydney. If unable to attend skype training can be conducted.

#### *Not Included*

Standards for testing requirement. This must be purchased from SAI Global. (AS 5203:2016 Protection of openable windows/fall prevention - Test sequence and compliance method)
